Druckmaschinen-Temperierungssystem II/Printing press temperature control system II, Federal Court of Justice (Bundesgerichtshof), 21 April 2009

Clemens Rübel · Tuesday, April 21st, 2009 · Landmark European Patent Cases

The Federal Court of Justice ruled that the subject matter of a patent does not extend beyond the content of the application as filed when terms are used in the claims that are not literally used in the application text but are summarizing words for longer descriptions in the application as filed.
