
Kluwer Patent Blog

E-mail via SMS, Federal Court of Justice (Bundesgerichtshof), 22 November 2011

Anja Petersen (Hoffmann Eitle) · Tuesday, May 29th, 2012

When seeking to improve a data structure prescribed in an international standard, the skilled person would consider mechanisms already described in the standard when solving the identified technical problem. If the standard provides a manageable number of possible solutions, each having specific advantages and disadvantages, this provides an incentive to take each of the solutions into account.
