## Latvia ratifies Unified Patent Court Agreement

Kluwer Patent blogger · Tuesday, January 23rd, 2018

Latvia has completed the ratification formalities of the Unified Patent Court Agreement by depositing its instrument of ratification with the secretariat of the EU Council.

It is the 15th state to do so, after Austria, Belgium, Bulgaria, Denmark, Estonia, Finland, France, Italy, Lithuania, Luxembourg, Malta, the Netherlands, Portugal, and Sweden.

Latvia will form a Nordic-Baltic regional division of the UPC together with Estonia, Lithuania and Sweden. It has not yet approved the [Protocol on Provisional Application](#) of the UPCA, nor signed the [Protocol on Privileges and Immunities](#).

The start of the Unitary Patent system depends on ratification by Germany and the United Kingdom of the UPCA. The UK is expected to ratify in the upcoming months. A constitutional complaint against the UPCA has derailed the ratification process in Germany however, creating uncertainty about the start of the system.
